mention ChiroSport Seminar**

Deadline to book a room: November 30

Our hotel "Swiss Bike & Ski Lodge", located in front of the ski lifts, is a non-smoking hotel that offers 32 spacious rooms with shower or bath and toilet, television, safe and wifi. You will be able to enjoy our completely renovated relaxation area including a jacuzzi, a sauna, a hammam and a massage room between 10:00 and 20:00.

JO 2024 Programme

Petra Schweinhardt

Petra Schweinhardt is the Head of the Department of Chiropractic Medicine at the Balgrist University Hospital and Professor of Chiropractic Medicine at the University of Zurich (UZH). She trained as an MD in Heidelberg, Germany, obtained a PhD at the University of Oxford, England and was a tenured professor at McGill University in Canada before transitioning to Switzerland. Here, she obtained her chiropractic degree at UZH and became Professor of Chiropractic Medicine in 2022.

Michael Vianin

Michael Vianin (MSc DC) - is a chiropractor with a Masters degree in Rehabilitation Sciences who has over twenty years of experience working with people who suffer from musculoskeletal pain. He specializes in the management of complex cases, including post-operative care. Michael also has extensive teaching experience in the rehabilitation of MSK disorders and in mentoring interns and residents.

Starting his career as a member of a multidisciplinary spinal pain team in Fribourg in Switzerland, Michael was also a Team Chiropractor with HC Fribourg-Gottron, a professional, Swiss ice hockey team, and engaged to lecture in Active Rehabilitation at Zurich University's Faculty of Medicine. Michael currently balances his roles as Team Chiropractor (HC Fribourg-Gottron), Staff Physician with Clinique Generale, Supervising Clinician with CHUV (University Hospital in Lausanne), and Chiropractic Physician at his own private practice in Fribourg. Michael has a keen interest in the unique qualities of each of his patients. His drive to continue learning about the clinical usefulness of the impact of patient dispositions on symptoms presentation and treatment outcomes has brought him to share his knowledge and experience with readers through Dispositionism in Musculoskeletal Care. Combining his passion for his career with his love for his family and an active, outdoor lifestyle, Michael believes the important lessons in life can come in many ways. It is only when we have the courage to embrace each moment, keep an open mind to change, and maintain our enthusiasm to learn, that we will reap the benefits of constructive change.

Mathieu Saubade
